It will send a strong message about how we expect children to be treated, and that we value their human rights. It may also change the behaviour of people who continue to assault children, and give legal recourse to try and change their behaviour.

I can't think of any.

Q5. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Broadly cost-neutral

Please explain the reasons for your response

There may be increased cost in enforcement, but that should be balanced by reduced long term costs in having a healthier and happier child population, which should lead to less government intervention.
