Q1. Which of the following best expresses your view of the proposal of giving children equal protection from assault by prohibiting all physical punishment of children?

Fully Supportive

Q1. Which of the following best expresses your view of the proposal of giving children equal protection from assault by prohibiting all physical punishment of children?

Please explain the reasons for your response

Children are small human beings who should not be physically assaulted by adults simply because the adults lack the appropriate empathy, emotional intelligence and ability to verbally communicate that a different choice of behaviour is preferable.

Q2. Could the aims of the proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of giving children equal protection from assault by prohibiting all physical punishment of children?

It would remove the opportunity for individuals to interpret legislation differently.

Q4. What do you think would be the main disadvantages, if any, of giving children equal protection from assault by prohibiting all physical punishment of children?

When a parent reacts through shock e.g. If a child runs in the road and almost gets knocked down and the parent smacks the child through shock and relief, that parent will be guilty of assaulting the child. This is an example from my own life - I didn't believe in smacking my daughter but on one (and only one) occasion I reacted totally out of character in the above situation.
